Опис вакансії

DataArt is searching for an ASP Classic developer who is ready to take part in developing and maintaining DataArt's internal systems. The company is engaged in commercial software development and IT consulting. DataArt's clients are often based in the US and EU countries, and for them we have already implemented hundreds of projects with the help of several thousand specialists from a dozen countries around the world.

All data about the company's work is stored and actualized in the system for automating internal processes. We constantly expand its features, create new services and maintain them. This allows the internal system to grow while staying convenient and up to date. Taking part in updating the system will give the ASP Classic developer an opportunity to show their professional skills and make a significant contribution to the development of a large international company.

Requirements — Mandatory:

- Experience working with Classic ASP, VBScript, JavaScript.
