Опис вакансії

Playwing is looking for an exceptional and talented Junior PHP Programmer to join our outstanding team.

Responsibilities:

- Participating in the server-side development and operation of a global mobile-commerce platform that will allow millions of users to have access to Playwing games.
- Responsible for the full engineering life cycle of our mobile app store project including technical design, task estimation, implementation and debugging.
- Troubleshoot and resolve issues reported by QA team.
- Database design and development.
- Constantly improve the application architecture, performance and security.
- Work with other challenging large-scale systems for game services and mobile advertising.

Requirements:

- 0.5+ years relevant professional experience, preferably focused on mobile web solutions.
- Good knowledge of PHP or similar server-side scripting language.
- Experience with SQL databases.
- Understanding of web protocols and standards such as SOAP, JSON, HTTP(S), etc.
- Experience with HTML, CSS, JavaScript, Ajax and JS frameworks.
- Ability to communicate in English.

Pluses:

- Passion for best design and coding practices.
- Experience working with Symfony.
- Ability to manage source code using revision control systems.
- Experience working with Amazon Web Services or Microsoft Azure.
- Knowledge of mobile web design.
- Experience with agile methodologies.
